Active Lancashire's safeguarding policy should be read and understood in conjunction with this communication strategy

Introduction

Active Lancashire is committed to the effective safeguarding of children, young people and adults across Lancashire who may be unable to protect themselves. We believe that all children, young people and adults should be able to obtain appropriate interventions, which enable them to live free from fear, harm or abuse.

The aim of this communication strategy is to provide a plan of action for improving and strengthening communication to and from the organisation, and to ensure that communication managed effectively and professionally.

To fulfil its objectives and effectively carry out its functions, Active Lancashire needs to raise awareness about how everybody can contribute to the safeguarding agenda. This should involve active listening to and consulting with participants, volunteers and staff, and ensuring their views and opinions taken into account in the planning and delivering of safeguarding support.

We recognise that people will need information at different stages, in different formats and locations depending on their requirements. Active Lancashire aims to provide information that is accessible, of high quality and meets the needs of participants, volunteers, partner organisations and staff working across partner organisations.
